Engine control  
Diesel EDC 17CP42

- Turbo pressure, actual value
- CAN: front axle speed
- CAN message, engine revolutions signal
- Fan 1 control
- Fan 2 control
- Brake pedal switch
- Exhausted gases recirculation adaptation
- Adaptation of charge air flow flap
- Acceleration pedal position sensor 1
- Acceleration pedal position sensor 2
- Fuel quantity metering device pulse-duty factor
- Air conditioner system pressure
- Tank filling door
- Injection time, cylinder 1
- Injection time, cylinder 2
- Injection time, cylinder 3
- Injection time, cylinder 4
- Variable speed limit
- Driving speed control
- Cooling agent pressure sensor
- Clutch pedal switch
- Engine start temperature
- Full throttle gas pedal position
- Brake pedal switch (redundancy)
- Start permission
- AGR-Magnetic valve duty cycle
- Wheel acceleration
- Rail pressure (measured)
- System in fail safe
- Cooling agent temperature control light
- Throttle valve required position
- Tempomat speed (required value)
- Injection pump revolutions
- Fuel level minimum
- Cooling agent pressure
- Signal for switching on air conditioner compressor
- Control unit status
- Immobilizer status
- Additive minimum level
- Injected amount of additive
- Particle filter output temperature
- Drive current, high-pressure pump
- Correction, Injection time
- EGR cooling bypass solenoid valve
- Ancillaries status signal
- DPF remaining mileage can be read out
- Particulate filter contamination level
- Estimated remaining HDP operating time
- Alternator regulator
- Number of terminated DPF regenerations
- Boost pressure upper limit first adaptation
- Boost pressure lower limit first adaptation
- EGR lower limit first adaptation
- Tank fill level via CAN
- Immobilizer code
- Recirculated-air flap, solenoid valve
- Radiator fan triggering actual value
- Electr. supplm. heater actuation
- Exhaust gas recirculation Position Actual Value
- Exhaust gas recirculation Position Target Value
- Ash content particle filter
- Distance since last regeneration
- Time since filling
- Calculated fuel quantity in oil
- Metering unit duty cycle, specified value
- Boost pressure control status bank 1
- Additive tank first filling
- Battery voltage on engine start
- Vehicle speed limitation button
- Intake air temperature not corrected
- Short-term DPF regeneration condition
- Long-term DPF regeneration condition
- Final compression

- Final compression temperature
- Atmospheric pressure on engine start
- Fuel temperature on engine start
- Mileage on engine start
- Estimated remaining rail operation time
- Remaining EGR cooler time
- Remaining timing chain time
- Remaining turbocharger time
- Remaining engine block time
- Remaining cylinder head time
- EGR valve adaptation value reset
- Air leakage
- Cooling agent compressor request
- Particle filter differential pressure
- Last adaption exhaust gas recirculation system
- First adaption exhaust gas flap control
- Last adaption exhaust gas flap controller
- Radiator fan request air-conditioner
- CAN message - coolant temperature
- Intake air temperature 2
- AGR cooling solenoid valve
- Status Particle filter-Regeneration
- Status Wake-Up Signal
- Throttle valve status
- Driver input torque
- Conditions for DPF-Regeneration
- Intake air, temperature 1
- Carbon black content Particle filter
- Alternator regulator set value
- EGR adaption mode status
- EGR valve fully closed adapt. value
- Additive reservoir
- Average mileage between regenerations
- Power loss
- Suction control valve control current nominal value
- Engine oil temperature sensor
- Time from last regeneration
- Turbocharger pressure lower limit adaptation
- Turbocharger pressure upper limit adaptation
- EGR upper limit adaptation
- Distance from the last DPF change
- Average piston speed
- Particle filter quality
- Crankshaft circumferent. speed
- Residual additive quantity
- Turbocharger boost pressure valve, set value
- **Actuators**
- Air pressure in intake manifold
- Oxygen sensor
- circuit compressor control
- exhausted gases recirculation control circuit
- interference engine
- Air mass meter signal
- exhausted gases recirculation solenoid 1
- Main relay
- turbo charger regulating valve
- warming up relay
- Additional heater
- Suction control valve
- Fuel pressure controller
- Radiator fan high speed
- Radiator fan: medium speed
- Exhaust gas recirculation control unit
- Auxiliary heater heating element 1
- Auxiliary heater – Heating component 2
- Additive delivery pump

Instrument cluster  
Instrument cluster 4.0

- Rear fog lights control lamp
- Right direction indicator control light
- Left direction indicator control light
- Trailer turn sign. indicators, warning light
- Red warning lamp
- Yellow warning lamp
- Oil pressure control lamp
- HDC indicator lamp
- Glow control light
- Ambient light sensor
- Electronic control unit power supply
- Parking brake, warning light
- Yellow brake indicator lamp
- Red brake indicator lamp
- Control light airbag
- Headlight level control, control lamp
- Adaptive cruise control, control light
- Automatic headlights indicator lamp
- Tire pressure monitor indicator lamp
- Side lights, control light
- **Actuators**
  - Instrument cluster indication lamps

Parking assisting system  
Park Distance Control 4.0

- **Identification**
- **Clear errors**
- **Functional tests**
  - System self test
- **Error memory**
- **Current values**
  - The ambient temperature
  - Electronic control unit supply voltage
  - Engine operation detected
  - Engine control unit power supply
  - Odometer
  - Park distance control system key
  - Distance left rear
  - Distance left centre rear
  - Distance right centre rear
  - Distance right rear
  - Distance, left front, outside
  - Distance, left front, inside
  - Distance, right front, inside
  - Distance, right front, outside
  - Distance sensor parking assistant front right
  - Distance sensor parking assistant front left
  - Engine start request
  - Status Diagnosis
  - Operating time
  - Interior temperature
  - Parking aid: system status
  - Parking aid: distance sensor, front left
  - Parking aid: distance sensor, front right
  - Parking aid: Rear left distance sensor decay time
  - Parking aid: Rear left center distance sensor decay time
  - Parking aid: Rear right center distance sensor decay time
  - Parking aid: Rear right distance sensor decay time
  - Parking aid: front left distance sensor decay time
  - Parking aid: front left center distance sensor decay time
  - Parking aid: front right center distance sensor decay time
  - Parking aid: front right distance sensor decay time
  - Muting by parking aid
  - Front right center distance sensor
  - Distance sensor, rear right center
  - Distance sensor, right rear
  - Distance sensor, left rear
  - Distance sensor, rear left center
  - Front left distance sensor
  - Front left center distance sensor
  - Front right distance sensor

- Parking aid indicator lamp
- Parking aid deactivation speed
- Number of faults after system test
- Parking aid error status
- Parking aid: Front distance sensor configuration
- Parking aid: Trailer detection
- Parking aid: Reverse gear engaged
- Parking assistant indicator lamp
- Parking assistant button
- Rear distance sensor status
- Front parking aid beep volume
- Rear parking aid beep volume
- Front right distance
- Front left distance
- Parking aid: Distance sensors
- **Actuators**
- Park distance control gong
- Park distance control switch LED
- Parking aid: Rear distance sensors
- Distance sensors

All-wheel drive electronics  
Transfer case 4.0

- **Identification**
- **Clear errors**
- **Error memory**
- **Current values**
- Vehicle driving speed
- Engine revolution
- Electronic control unit supply voltage
- Control unit, Voltage sensor 1
- Control unit, Voltage sensor 2
- Transmission mode
- Manual transm.: Gear stick position
- Slip speed
- Transfer case solenoid valve
- Voltage servo motor (M+)
- Voltage servo motor (M-)
- Servo motor speed
- Status Diagnosis
- Motor current
- Error frequency counter
- Ignition starter switch status
- Overtemperature protection
- Specified clutch torque
- 4WD HIGH position switch
- Actual motor position angle
- Control motor reset counter
- Actuator position
- Gear position sensor 1
- Gear position sensor 2
- Number of faults after system test
- temperature sensor
- Internal control module temperature
- Transfer case Neutral
- Control motor direction of rotation sensor voltage
- Transfer case actual locking torque
- Ignition key removal lock solenoid valve
- Output shaft drive sensor 1
- Gearbox output shaft speed
- 4WD high range lamp
- Motion sensor
- Gear adaption status
- Control motor temperature
- Selector lever position sensor voltage
- High gear engaged
- Low gear engaged
- 4WD LOW position switch
- Low gear range warning lamp
- High-Range indicator lamp voltage monitoring
- Low-Range indicator lamp voltage monitoring
- Direction of motor rotation, anti-clockwise
- Direction of motor rotation, clockwise
