Underbody/Steering  
Level control 2.3

- Compressor shutoff overload
- Compressor shutoff undervoltage
- Front left level valve current consumption
- Front right level valve current consumption
- Rear right level valve current consumption
- Rear left level valve current consumption
- Front left damper valve 1 current consumption
- Front left damper valve 2 current consumption
- Front right damper valve 1 current consumption
- Front right damper valve 2 current consumption
- Rear left damper valve 1 current consumption
- Rear left damper valve 2 current consumption
- Rear right damper valve 1 current consumption
- Rear right damper valve 2 current consumption
- Vehicle level sensor front left signal 1
- Vehicle level sensor front right signal 1
- Vehicle level sensor rear axle signal 1
- Vehicle front left level
- Vehicle front right level
- Security shutdown
- Current consumption pressure reduction valve
- Sport-mode, button
- Compressor, runtime
- Damper mode
- Central accumulator valve power input
- Terminal 87
- Sports mode LED

• **Actuators**

- Front left damper valve 1
- Front left damper valve 2
- Front right damper valve 1
- Front right damper valve 2
- Rear left damper valve 1
- Rear left damper valve 2
- Rear right damper valve 1
- Rear right damper valve 2
- Pressure release front left spring strut
- Pressure release front right spring strut
- Pressure release rear left spring strut
- Pressure release rear right spring strut
- Charging the front left spring strut
- Charging the front right spring strut
- Charging the rear left spring strut
- Charging the rear right spring strut
- Central pressure accum., pressure discharge
- Centr. pressure accum., charging
- Button LED

Immobilizer  
Access system/immobilizer 2.3

• **Identification**

• **Clear errors**

• **Adjustments / settings**

- Passenger compartment key detection
- Luggage compartment key recognition

• **Error memory**

• **Current values**

- Power supply
- Sensor, front left
- Sensor, front right
- Rear left sensor
- Rear right sensor
- Door handle sensor, front left
- Door handle sensor, front right
- Door handle sensor, rear left
- Door handle sensor, rear right
- Rear left door antenna
- Rear right door antenna
- Luggage compartment antenna
- Keyless Go equipment
- Front interior antenna
- Rear interior antenna
- Rear lid handle sensor
- Front left door exterior handle
- Front right door exterior handle

					<ul style="list-style-type: none"> <li>- Rear left door exterior handle</li> <li>- Rear right door exterior handle</li> </ul>

Lights control  
XALWA Master

- High beam light
- Terminal 56b voltage
- Lights vertical regulation servo motor position
- Lamp, ignition voltage
- Lamp intensity
- Steering wheel, steering angle
- Indicators switch
- Wheel speed front left
- Wheel speed front right
- Wheel speed rear left
- Wheel speed rear right
- Steered headlights position
- Headlights Zero position
- Voltage at terminal 56a
- Front left axle sensor
- Rear left axle sensor
- **Actuators**
  - Driving with headlights range in central position
  - Driving with headlights range in maximum position
  - Driving with headlights range in minimum position
  - Static left turning light
  - Dynamic steered headlights
  - Steered headlights to the left
  - Steered headlights to the right
  - Left cornering light, left swivel
  - Left cornering light, right swivel
  - Left cornering light in center position
  - Left and right turning light

Lights control  
XALWA High Line (Master)

- **Identification**
- **Clear errors**
- **Error memory**
- **Current values**
  - Turning angle sensor
  - Transverse acceleration
  - Control unit power supply
  - Terminal 61
  - Reverse gear
  - Terminal 56b voltage
  - Lights vertical regulation servo motor position
  - Lamp, ignition voltage
  - Lamp intensity
  - Steering speed
  - Indicators switch
  - Wheel speed front left
  - Wheel speed front right
  - Main beam switch
  - Wheel speed rear left
  - Wheel speed rear right
  - Rear axle sensor
  - Front axle sensor
  - Steered headlights position
  - Headlights Zero position
  - Status light control
  - Voltage at terminal 56a
- **Actuators**
  - Driving with headlights range in central position
  - Driving with headlights range in maximum position
  - Driving with headlights range in minimum position
  - Static left turning light
  - Steered headlights to the left
  - Steered headlights to the right
  - Left cornering light, left swivel
  - Left cornering light, right swivel
  - Left cornering light in center position
  - Left and right turning light

- **Identification**
- **Clear errors**
- **Adjustments / settings**
  - Zero point programming axle sensors
- **Error memory**
- **Current values**

Lights control  
XALWA Slave

- Transverse acceleration
- Control unit power supply
- Steering wheel rotation angle sensor
- reflexive angle
- High beam light
- Terminal 56b voltage
- Lights vertical regulation servo motor position
- Lamp, ignition voltage
- Lamp intensity
- Steering wheel, steering angle
- Indicators switch
- Wheel speed front left
- Wheel speed front right
- Wheel speed rear left
- Wheel speed rear right
- Steered headlights position
- Voltage at terminal 56a
- **Actuators**
  - Driving with headlights range in central position
  - Driving with headlights range in maximum position
  - Driving with headlights range in minimum position
  - Static right turning light
  - Right cornering light, left swivel
  - Right cornering light, right swivel
  - Right cornering light in center position

Lights control  
XALWA High Line (Slave)

- **Identification**
- **Clear errors**
- **Error memory**
- **Current values**
  - Transverse acceleration
  - Control unit power supply
  - Terminal 56b voltage
  - Lights vertical regulation servo motor position
  - Lamp, ignition voltage
  - Lamp intensity
  - Main beam switch
  - Wheel speed rear left
  - Wheel speed rear right
  - Steered headlights position
  - Voltage at terminal 56a
- **Actuators**
  - Driving with headlights range in central position
  - Driving with headlights range in maximum position
  - Driving with headlights range in minimum position
  - Right cornering light, left swivel
  - Right cornering light, right swivel
  - Right cornering light in center position

Lights control  
XALWA High Line (Master)

- Turning angle sensor
- Transverse acceleration
- Control unit power supply
- Terminal 61
- Reverse gear
- Terminal 56b voltage
- Lights vertical regulation servo motor position
- Lamp, ignition voltage
- Lamp intensity
- Steering speed
- Indicators switch
- Wheel speed front left
- Wheel speed front right
- Main beam switch
- Wheel speed rear left
- Wheel speed rear right
- Rear axle sensor
- Front axle sensor
- Steered headlights position
- Headlights Zero position
- Status light control
- Voltage at terminal 56a
- **Actuators**
  - Driving with headlights range in central position
  - Driving with headlights range in maximum position
  - Driving with headlights range in minimum position
  - Static left turning light
  - Steered headlights to the left
  - Steered headlights to the right
  - Left cornering light, left swivel
  - Left cornering light, right swivel
  - Left cornering light in center position
  - Left and right turning light

Lights control  
XALWA Slave

- **Identification**
- **Clear errors**
- **Adjustments / settings**
  - Zero point programming axle sensors
- **Error memory**
- **Current values**
  - Transverse acceleration
  - Control unit power supply
  - Steering wheel rotation angle sensor
  - reflexive angle
  - High beam light
  - Terminal 56b voltage
  - Lights vertical regulation servo motor position
  - Lamp, ignition voltage
  - Lamp intensity
  - Steering wheel, steering angle
  - Indicators switch
  - Wheel speed front left
  - Wheel speed front right
  - Wheel speed rear left
  - Wheel speed rear right
  - Steered headlights position
  - Voltage at terminal 56a
- **Actuators**
  - Driving with headlights range in central position
  - Driving with headlights range in maximum position
  - Driving with headlights range in minimum position
  - Static right turning light
  - Right cornering light, left swivel
  - Right cornering light, right swivel
  - Right cornering light in center position

- **Identification**
- **Clear errors**
- **Error memory**
- **Current values**
  - Transverse acceleration
  - Control unit power supply
  - Terminal 56b voltage
  - Lights vertical regulation servo motor position

Lights control  
XALWA High Line (Slave)

- Lamp, ignition voltage
- Lamp intensity
- Main beam switch
- Wheel speed rear left
- Wheel speed rear right
- Steered headlights position
- Voltage at terminal 56a
- **Actuators**
  - Driving with headlights range in central position
  - Driving with headlights range in maximum position
  - Driving with headlights range in minimum position
  - Right cornering light, left swivel
  - Right cornering light, right swivel
  - Right cornering light in center position
