Underbody/Steering  
Adaptive suspension system 4.0

- Rear left wheel housing edge body height
- Rear right wheel housing edge body height
- Time stamp
- Complete altitude calibration
- Front left vehicle level sensor, PWM signal value
- Front right vehicle level sensor, PWM signal value
- Rear left vehicle level sensor, PWM signal value
- Rear right vehicle level sensor, PWM signal value
- Compressor ambient temperature
- Extreme level detected
- System pressure sensor power supply
- Left vehicle level sensor power supply
- Right vehicle level sensor power supply
- Solenoid valve block power supply
- Front left damper valve current
- Front right damper valve current
- Rear left damper valve current
- Rear right damper valve current
- Front left damper PWM signal value
- Front right damper PWM signal value
- Rear left damper PWM signal value
- Rear right damper PWM signal value
- Accumulator control possible
- Last measured value, air suspension, front left
- Last measured value, air suspension, front right
- Last measured value, air suspension, rear left
- Last measured value, air suspension, rear right
- Current mileage
- Front vehicle level set value
- Rear vehicle level set value
- Load level button: Raise
- Load level button: Lower
- Load level button: Redundant signal
- Load level button LED
- Air suspension: Requested level
- Air suspension: Current level
- Requested damper mode
- Front left air spring valve
- Front right air spring valve
- Rear left air spring valve
- Rear right air spring valve
- Actuators power supply
- Front left deviation from learned vehicle level
- Front right deviation from learned vehicle level
- Rear left deviation from learned vehicle level
- Rear right deviation from learned vehicle level
- Front left absolute vehicle height
- Front right absolute vehicle height
- Rear left absolute vehicle height
- Rear right absolute vehicle height
- Front left normal level height deviation
- Front right normal level height deviation
- Rear left normal level height deviation
- Rear right normal level height deviation
- Front left vehicle level sensor: Offset
- Front right vehicle level sensor: Offset
- Rear left vehicle level sensor: Offset
- Rear right vehicle level sensor: Offset
- Power supply vehicle level sensor, front left
- Power supply vehicle level sensor, front right
- Power supply vehicle level sensor, rear right
- End basic setting
- End running gear setting mode
- Number of invalid keys
- Readiness for operation
- Steering wheel angle sensor: Angle

- Air suspension compressor relay
- Unlearning counter
- Vehicle locking with key
- System test result status
- Time stamp: Month
- Time stamp: Day
- Time stamp: Hour
- Time stamp: Minute
- Time stamp: Second
- Time stamp: Year
- Operating time in hours
- Vehicle inclination analysis
- Vehicle axle twist analysis
- Internal damper mode
- Front left level correction value
- Front right level correction value
- Rear left level correction value
- Rear right level correction value
- Jack mode
- Terminal 15 status
- Compressor operating time air, flow control
- Compressor operating time, Level control
- No. of air flow control actuation operations
- Number of level control actuation operations
- Loading status
- Level control emergency operation
- Number of air release valve actuation operations
- Number of compressor actuation operations
- Number of front left air suspension valve actuation operations
- No. of front right air suspension valve actuation operations
- Number of rear left air suspension valve actuation operations
- Number of rear right air suspension valve actuation operations
- Number of switching valve 1 actuation operations
- Number of switching valve 2 actuation operations
- System temperature 1
- System temperature 2
- Vehicle identification number (VIN) monitoring
- No.of front left additional volume valve actuation operations
- No.of front right additional volume valve actuation operations
- No.of rear left additional volume valve actuation operations
- No.of rear right additional volume valve actuation operations
- Level control active controller
- Level control, control requirement
- Current lane recognition mode
- Steering angle sensor: Direction positive/negative
- Act. MMI setting Jack mode
- Act. MMI setting Suspension raising
- Act. MMI setting Trailer mode
- Specified normal level status
- Front left body acceleration
- Front right body acceleration
- Rear body acceleration
- Transverse tilt
- Dry-running operation function
- Front right normal level deviation
- Front left normal level deviation
- Norm.level deviation, rear left

					<ul style="list-style-type: none"> <li>- Norm.level deviation, rear right</li> <li>- Calculated compressor temperature</li> <li>- Compressor temperature</li> <li>- Compressor relay</li> <li>- Air release valve</li> <li>- Pressure accumulator valve</li> <li>- Level valve front left</li> <li>- Level valve front right</li> <li>- Level valve rear left</li> <li>- Level valve rear right</li> <li>- Metered air quantity</li> <li>- Air suspension compressor</li> <li>- Level control status</li> <li>- Shipment mode</li> <li>- Current drive program</li> <li>• <b>Actuators</b> <ul style="list-style-type: none"> <li>- Button lights</li> <li>- Central pressure accum., pressure discharge</li> <li>- Centr. pressure accum., charging</li> <li>- Air suspension compressor relay</li> <li>- Front left air spring valve</li> <li>- Front right air spring valve</li> <li>- Rear left air spring valve</li> <li>- Rear right air spring valve</li> <li>- Damper adjustment valve current</li> <li>- Front left damper adjustment valve current, Soft</li> <li>- Front left damper adjustment valve current, Hard</li> <li>- Front right damper adjustment valve current, Soft</li> <li>- Front right damper adjustment valve current, Hard</li> <li>- Rear left damper adjustment valve current, Soft</li> <li>- Rear left damper adjustment valve current, Hard</li> <li>- Rear right damper adjustment valve current, Soft</li> <li>- Rear right damper adjustment valve current, Hard</li> </ul> </li> </ul>
